• *Targeting Experienced* **DevSecOps** *Position* •

AI Enthusiast, Creator of S3Explorer, Maintainer of S2Tui, Lead DevSecOps & Cloud engineer @Edusign for EdTech Saas. Run AWS infrastructure on ECS (120k tasks/month), Lambda (94M invocations/month) and Aurora/RDS, with Terraform & CloudFormation IaC deployed through GitHub Actions, in a Node.js environment. In 2026: led ISO 27001 compliance, cut the cloud bill by $135k/year, did 643 commits and opened 223 PRs (+116k/−17k lines) across 20+ repositories, triggering ~9k CI jobs, 44k lines TypeScript, 12k Rust, 12k Vue, 9k Terraform, 6k Python and 4k of CI. Looking for full-remote challenges, there has never been a better time to rethink 30y of software development practices

• CORE STRENGTHS & SKILLS •

- ➢ Claude & Hermes AI Agent
- ➢ Docker & Kubernetes & IaC
- ➢ Python3 (Flask, FastAPI)
- ➢ Git & CI / CD
- ➢ SQL (MySQL, PostgreSQL...)
- ➢ Js (NodeJs, React & Vue)
- ➢ Testing (JMeter, Locust...)
- ➢ Unix/Linux & Scripting
- ➢ Cloud (GCP, AWS...)

• PROFESSIONAL EXPERIENCE •

Lead DevSecOps *@Edusign* — Europe | since 2026

- ➢ DevSecOps for EdTech Saas on AWS, achieve ISO27001, Provide infra & resources for a team of 17 developers
